

NOTE:
These drawings shall be read in conjunction with all structural & other consultants drawings & specifications and with such other written instruction as may be issued during the course of the contract.
Any discrepancies shall be referred to the building designer for decision before proceeding with the work.
Figured dimensions to be taken in preference to scaling from drawings.
During construction the building shall be maintained in a stable condition & no part shall be overstressed.
All workmanship shall be in accordance with the requirements of the SAA codes & by-laws & ordinances of the relevant building authority.
Dimensions are in millimetres.
All dimensions and levels shall be checked by the builder prior to the commencement of the works.
All timber framing sizes & spans to be in accordance with SAA timber framing code AS 1684.
All bracing of roof & wall framing to satisfy wind speed design category in accordance with BCA & AS 4055 to engineers certification.
All reinforced concrete shall be in accordance with engineers details.
Builder/developer to maintain erosion control in accordance with the clean waters act 1970.
Termite treatments in accordance with AS 3660 & AS 3660 part 1.
Builder to verify location of all services & vegetation prior to commencement of works.
All opening sizes to be confirmed on site prior to ordering of windows & doors
All Structural Steel is to be protected against corrosion in accordance with Structural Engineers recommendations.
The Waterproofing of all work is the builders responsibility.
All building work must be carried out in accordance with the Building Code of Australia

- NOTE
- 1 No vehicle crossing or stockpiling of material on vegetation buffer.
 - 2 All sedimentation control structures to be inspected & maintained by site manager daily.
 - 3 All sediment retaining structures to be cleaned on reaching 50% storage capacity.
 - 4 All existing vegetation will be retained outside the construction site.
 - 5 Clean sediments from footpaths, driveways & roads daily.
 - 6 Roof drainage via sealed pipeline to street gutter on roof completion.

NOTE:
THE LOCATION OF SERVICES ARE TO BE VERIFIED BY OBTAINING CURRENT INFORMATION FROM "DIAL BEFORE YOU DIG" (PHONE 1100) PRIOR TO DESIGN/CONSTRUCTION WORKS. ALTERNATIVELY, THE EXACT LOCATION OF SERVICES SHOULD BE DETERMINED BY FIELD SURVEY IN CONSULTATION WITH THE SERVICE AUTHORITIES WHERE DEEMED NECESSARY.
